

Dear Friend!

## DoctorRusich

Knowledge of Russian is an essential competence for most of today's prestigious professions, from programming and management to analytics and management. If you are still struggling with the Russian language as one of the important languages in the international community, we recommend that you explore our offer of an online course.

*An educational platform for children and adults from the creators of DoctorRusich.*

The online course platform offers educational materials for school pupils and students with different levels of knowledge - from basic to TORFL IV. The course also includes a separate business Russian programme for corporate training, as well as courses for children. Many formats are used on the platform: simulators, videos, dialogues, bonus podcasts, a lot of adapted literature, games, etc.

### What you will learn

Here you will find training programmes for children / teenagers from 7 to 18 years old and adults.

### Full info
